

C1: Testcase for functionalities of a user

Type	Priority	Estimate	References
Compatibility	High	20 minutes	R6
Automation Type			
None			

Preconditions

- 1.The user is having a good internet connection.
- 2.The user credentials are valid.
- 3.Facebook Server in good condition.

Steps

1	The user clicks on the Facebook app to open.	The user sees a login page asking for the user credentials.
2	The user enters the username in username field and password in password field.	The page allows the user to enter the credentials in the text fields.
3	The user clicks on Login.	After verifying the credentials with server the user either redirected to home page(for valid credentials) or goes back to login page(for invalid credentials).
4	The user clicks on any of his/her friend's profile.	The user must be able to see their info and message symbol on the page.
5	The user clicks on message.	The user must see the chat between them.
6	The user writes a message and clicks on send.	The message should be sent and be visible for the friend.
7	The user clicks on his/her friend's story.	The user should be able to see the story and see the two buttons below named as Share story and Reply.
8	The user clicks on Share story button.	The user must be redirected to his/her story page with the friend's story.
9	The user makes some changes.	The story must be played after making changes.
10	The user clicks on Share story button.	The story must be shared in the user's profile.
11	The user clicks on home button in Facebook.	The user must be redirected to home page.
12	The user clicks on menu button which is available on top right hand side.	The user must be able to see the options available in menu.
13	The user scrolls down to the bottom.	The user must see Logout option at the end of the options.
14	The user clicks on logout.	A pop will be displayed showing "Are you sure" with two buttons Yes and No.

15	The user clicks on Yes button.	The system will logout from the user account and redirects to login page.
----	--------------------------------	---

16	The user closes the Facebook app.	The system goes back from login page to applications page.
----	-----------------------------------	--
